
Announcement on minimum position determination

Dear clients,

We inform you that our company makes a decision to determine the minimum position that can be opened with the following symbols:

- oil 10 lots
- silver 50 lots
- stock 1 lot
- natural gas 10 lots

These rules come into force and will be applied to all new positions starting on December 1, 2023. Whereby clients will be able to close all positions that are in smaller quantities and that they opened before this day.
